YAMAZEN CORPORATION

Warning Regarding Suspicious Emails Posing as Yamazen Employees

We would like to express our sincere gratitude for your continued support.

We have recently confirmed instances of fraud in which individuals are impersonating our employees using fake email addresses, attaching documents purporting to be notifications of changes to bank account information, and requesting payment transfers.

The malicious email address uses the domain **@yamazen-jp.com** and was sent by a third party with no affiliation to our company. We kindly ask that you alert your employees to this matter.

The domain of the official email addresses we use : @yamazen.co.jp

The domain of confirmed fake email addresses : @yamazen-jp.com

If you receive an email from a fake email address or a suspicious email, please do not respond to it and contact us immediately.
